

# SCIENCE LAB

...science discovery for young explorers

**Science Lab is a unique science-based education program specifically aimed at preschool children.**

**It is a mobile science program of unique excellent quality.**

**We create happy learners in a fun, supportive and positive environment.**

**Parents highly value the enrichment program and enhanced learning of their children.**

"MY FAVOURITE THING ABOUT THE YEAR IS SCIENCE!"  
Gavin 3 years

"I WANT TO BE A SCIENTIST"  
Liam, 3 years

"TUESDAY TODAY, SCIENCE WOW MISS AMANDA SQUEEZED AN EGG IN A BOTTLE AND IT WENT PLOP"  
Pia, 3 years

"Amanda is enthusiastic and dedicated to her profession and has shown real rapport with our little children. She encourages curiosity, inspires creativity and introduces a part of the curriculum which is fundamental to comprehensive education."

Prue Gillies, proprietor  
Kids on Collins

"As parents we feel a great deal of satisfaction leaving our kids in such qualified and capable hands. The content is exciting and it is great to witness our daughter's delight and anticipation every Tuesday morning."

Alison, parent

"I CAN'T MISS TUESDAY BECAUSE OF MISS AMANDA AND SCIENCE. ASTRONAUT DAY TODAY, YEAH!"  
Lucy, 4 years

"Miss Amanda's influence has definitely fostered Liam's curiosity in science, so much so that he constantly asks to play with the science kit that he got last Christmas"

Rebecca, parent.

"After school on Tuesday's she tells us about what she did in science. Your different themes were so interesting. We both love how your classes captured the imagination of the kids and showed them how much science plays a part of our daily lives. Your space theme was particularly amazing." Vicki, parent
